

# Curriculum Vitae – Even Bergseng

Forest Director | PhD in Forest Economics

## Executive Summary

Dr. Even Bergseng is a recognized authority in forest economics, with a PhD and extensive international research experience focused on forest valuation, resource economics, and sustainable forest management. Dr. Bergseng has authored numerous peer-reviewed publications that have advanced the understanding of economic dynamics in forestry, including timber valuation, land use trade-offs, and ecosystem service assessments. Dr. Bergseng combines rigorous analytical skills with a deep understanding of forest systems, enabling him to deliver high-quality, evidence-based valuation work. His track record of interdisciplinary collaboration and policy-relevant research makes him an ideal contributor to forest valuation projects requiring both scientific depth and practical insight.

## Personal Information

Date of Birth:	15 October 1973
Phone:	47 97 66 61 73
Email:	even.bergseng@norskog.no
Nationality:	Norwegian
Languages:	Norwegian: Native English: Fluent

## Key Competence

- Expert in economic valuation of forest resources and ecosystem services.
  - Extensive experience with bio-economic models and decision support systems.
  - Proficient in using diverse data sources for forest resource mapping.
  - Proven track record in national and international cross-sector projects.
  - Deep understanding of instruments for sustainable forestry and biodiversity conservation.
  - Skilled in translating research into actionable advice for stakeholders.
  - Author of numerous peer-reviewed publications on forest policy, resource management, and climate.
  - Broad outlook through international research and publication experience.
- 

## Education

### PhD – Forest Economics

Norwegian University of Life Sciences (UMB), Norway (2003–2008)

PhD thesis: Analyses of Norwegian forest policy: Cost sharing, biodiversity and conflicts.

### MSc – Forestry

Norwegian University of Life Sciences, Norway (1995-1999)

Thesis: Production efficiency and size in Norwegian sawmilling.

## Work Experience

### Forest Director

NORSKOG – 2020 – Present

- Valuation of national and international portfolios and forest properties
- Involved in all R&D projects, with contacts towards all relevant research institutions in Norway
- Certificate holder PEFC (Norsk skogsertifisering) and FSC (for Nortømmer)

### Head of Forestry

Viken Skog SA – 2018-2020

- Overseeing wood procurement (appr. 1mill m3)
- Forestry advice

### Head of department Forest Technology

Norwegian Institute of Bioeconomy Research – 2016 – 2017

- Administration of the department and overseeing projects
- Research

### Forest Consultant

NORSKOG – 2013-2016

- Valuation of national and international portfolios and forest properties
  - R&D projects
- 

## Researcher

Department of ecology and natural resource management, Norwegian University of Life Sciences - 2009-2012 and Agricultural University of Norway – 2002-2008

- Research assistant 2002-2003, various projects
- PhD student 2002-2008:

## Research assistant

Telemarksforskning – 2000-2001

- Junior researcher in various projects

## International Project Experience

- **Collaborative Research:** Participated in international research projects with partners from countries such as Sweden, Finland, and Portugal.
  - **Scientific Publishing:** Co-authored numerous peer-reviewed articles in international journals, often in collaboration with foreign researchers.
  - **EU and Nordic Projects:** Contributed to cross-border studies and policy assessments within European and Nordic research frameworks.
  - **Comparative Policy Analysis:** Worked on projects comparing forest management and biodiversity policies across national contexts.
  - **Conference Participation:** Presented research at international conferences and workshops, strengthening global academic networks.
  - **Multinational Teams:** Experienced in working within interdisciplinary and multicultural research teams.
  - **Language and Communication:** Proficient in communicating complex scientific findings to international audiences, both in writing and orally.
  - **Global Perspective:** Brings a broad understanding of forest economics and valuation practices across different ecological and regulatory systems.
-
